

SURVIVA-PURE

THE ULTIMATE WATER PURIFICATION SYSTEM

SURVIVAL STRAW

SIMPLY INSERT STRAW INTO ABSOLUTELY ANY WATER SOURCE & DRINK SAFE, PURE TASTING WATER INSTANTLY

WITHOUT TASTE-PREPARATION-DELAY

TREATS UP TO 200 LITRES

The *Web-tex*
SURVIVA-PURE SURVIVAL STRAW

contains in-built purification media & special filters which remove & reduce chemicals, impurities & taste in water – **immediately** – this is your own micro water treatment purification & filtration plant.

Delivering clean tasting potable water from any non-saline source – removing the threat from untreated water sources that might contain *Cryptosporidium*, *Giardia*, *E-coli* & viral disease causes.

USER GUIDE Always draw the cleanest water you can find. Take water pouch from holder & fill 2/3 full and insert straw – close up zip. Suck up water whilst keeping the straw vertical. Suck gently but constantly and water will be delivered at about 100 mls/minute. There will be reasonable resistance as water is filtered.

CAPACITY/LIFESPAN

up to 200 litres

Equivalent to 2 glasses water a day for a year

USE: WORLDWIDE

in any non-saline water application.

Anti-Microbial Mouth Piece

Activated Coconut & Absorbing Media

SSO Media
