

Steripen Aqua

PRODUCT CHARACTERISTICS

Technology:	UV water purifier
Effect:	Eliminates bacteria, protozoa and viruses
Treatment size:	½ or 1 liter
Treatment time:	48 or 90 seconds
Lamp Life:	3000 activations
Battery:	4 AA batteries Alkaline, Lithium or Rechargeable NiMH (Not included with purchase)
Minimum bottle diameter:	22 mm
Weight (with batteries):	178 g
Dimensions:	4.3 x 4.3 x 18.6 cm
Kit contains:	Steripen Aqua
Article No.:	60110075

FACTS

- Perfect for occasional travel and home emergency kits – lasts for up to 3,000 liters of water purification.
- The Steripen Aqua is sleek and ergonomic with an easy-to-remove twist-off lamp cover.
- Ultraviolet (UVC) light rays safely purify clear water by destroying 99.9% of protozoa (including Giardia and Cryptosporidia), bacteria and even viruses.
- When the treatment is complete, the lamp turns off and an LED indicator lights up so you know you can hydrate safely.
- Use only on clear water, as cloudy, sediment-laden water hinders effectiveness.
- Approximate number of activations using the various battery chemistries:
Alkaline (25), Lithium (150) or Rechargeable NiMH (100)
